PROFESSIONAL SUMMARY

Passionate and detail-oriented **Computer Science graduate** aspiring to build a career in **Data Science, Artificial Intelligence, and Machine Learning**. Skilled in Python, C/C++, SQL, NumPy, Pandas, and Matplotlib, with hands-on experience through **Data Science projects, an internship, and AI-focused competitions**. Eager to apply analytical and technical skills to uncover meaningful insights, develop innovative solutions, and contribute to **data-driven decision-making in a dynamic professional environment**.

Education

- **Class 10: Swastik Convent School, Sonipat CBSE Board 2021 -** Achieved **74%**
- **Class 12: Swastik Convent School, Sonipat CBSE Board 2023 -** Achieved **71%**
- **BSc in Computer Science**– GVM GIRLS COLLEGE SONEPAT (MDU ROHTAK) (2023 - 2026)

Skills

- **Programming Languages:**Python , C , C++ , HTML , CSS , SQL
- **Data Science & Machine Learning :**NumPy, Pandas, Matplotlib, Data Analysis, Machine Learning, Artificial Intelligence, Computer Vision, OpenCV, YOLO
- **Development & Tools:** VS Code, Jupyter Notebook, Google colabs, Git ,Github
- **Data & Business Tools:** Microsoft Excel , Power BI ,Tally Prime
- **Designe & Digital Tools :** Canva ,Figma , Wix , AI Tools
- **Soft Skills:** Analytical Thinking , Problem Solving , Communication , Teamwork ,Leadership , Creativity , Adaptability ,Time Management , Attention to Detail

Certifications & Achievements

BE10X — 50+ AI Tools Certification | October 2024
Practical exposure to AI tools for productivity, content creation, research, automation, and digital workflows.
Corizo — Data Science Internship | March–April
Hands-on exposure to Data Science concepts, Python-based data analysis, visualization, and machine learning fundamentals.
IIRS–ISRO Outreach Course
Earth Observations and Numerical Model Applications for Tropical Cyclone Monitoring and Forecasting
Focus Area: Atmospheric Science
AI Make-a-thon 2025 — First Runner-Up 🏆
Recognized for innovation, problem-solving, and application of AI concepts.
Ongoing Technical Learning
Continuous learning in **Advance Data Science, Artificial Intelligence, Machine Learning, Computer Vision, Python, and emerging technologies**.

Experience

PROJECTS

Semiconductor Yield Prediction (https://github.com/Priya-S5/Semiconductor-Yield-Prediction)| Python, Scikit-learn, ML
Developed a classification model for semiconductor pass/fail prediction using feature engineering, Random Forest, SVM, Naïve Bayes, and SMOTE.

Cardiovascular Disease Prediction (https://github.com/Priya-S5/Cardiovascular-Disease-Prediction)| Python, Scikit-learn, ML
Built a disease-prediction pipeline with preprocessing, EDA, multiple classification models, cross-validation, and hyperparameter tuning; achieved **92% accuracy with Random Forest**.

Quantum Harmony Lab — Quantum Computing Research (https://github.com/Priya-S5/quantum-harmony-lab)| Python, Qiskit
Simulated quantum-gate noise and error propagation, explored error-correction techniques, and developed visual models for quantum circuit reliability.

NHANES Data Analysis (https://github.com/Priya-S5/NHANES-Data-Analysis)| Python, NumPy, Matplotlib
Performed exploratory and statistical analysis with preprocessing, correlation, standardization, feature engineering, and visualizations using NHANES body-measurement data.

Spotify Songs' Genre Segmentation — In Progress (https://github.com/Priya-S5/Spotify-Music)| Python, Pandas, Scikit-learn
Developing an unsupervised ML pipeline using PCA/t-SNE, K-Means, and DBSCAN to analyze audio features and segment songs for recommendation use cases.

My Little Universe (https://priya-s5.github.io/MyLittle-Universe/)| HTML, CSS, JavaScript, Capacitor
Developed an interactive digital diary web application featuring customizable themes, moods, music, and character-based UI; deployed the web version through GitHub Pages.

Satyam Digital Studio Website | Wix, Canva, Web Design
Designed and developed a professional business website with structured service information, branding, and user-friendly digital presentation.

AYIRP — Artificial Yotta Intelligence Research | Python, OpenCV, YOLO
Developed an AI research concept and Vision AI prototype exploring computer vision, object detection, and emerging AI applications.

PROFESIONAL STRENGTH

· Analytical thinking and problem-solving
· Self-learning and adaptability to emerging technologies
· Strong technical and creative approach
· Practical exposure to Data Science and AI
· Independent project development and execution
· Research, innovation, and entrepreneurial mindset
· Leadership, teamwork, and effective communication

CAREER OBJECTIVE

To build a rewarding career in **Data Science, Artificial Intelligence, and Machine Learning** by applying my programming, analytical, and problem-solving skills to real-world challenges. I aim to contribute to innovative, data-driven solutions while continuously developing my technical expertise and growing as a technology professional.

Personal Details
Date of Birth: 08 August 2005
Languages Known: Hindi , English , French
Nationality: INDIAN
Address: Shazadpur, Sonipat, Haryana – 131001

Declaration

"I affirm that the information provided in this resume is accurate and complete to the best of my knowledge"

Date: 04/10/2026 Priya
Location: Shazadpur ,Sonipat, Haryana-131001 ,INDIA **Signature**
